

INTRODUCING

# ODOUR BLAST

## GAME CHANGING PRODUCTS FOR A NEW WORLD

**Born in UK, Combact started in 2020 with a simple idea - to protect you and the planet.**

That's why we create sports-related care products that kill bacteria and viruses, keeping your kit fresh and ready for action. Our revolutionary new Airopack technology means you can feel good about your environmental impact every time you use a Combact product.

With our origins coming from martial arts, we quickly realised that our products were too good not to share with other sports. The Combact team are dedicated to helping people of all ages and genders get fitter, stronger and perform at their maximum across every sport discipline.

We want you to train feeling protected and confident that you have the best products by your side. We believe once you've used Combact, **you won't be able to live without it.**

**NOW THERE'S  
NO EXCUSE NOT  
TO TRAIN HARD,  
TRAIN LONGER &  
FEEL BETTER.**

### Product description

The Odour Blast by Combact is a versatile spray for use in all sports kit and equipment. The ingredients work together to ensure the efficient kill of odour causing bacteria. This leaves you with deep cleaned and deodorised kit and equipment. As well as this, The Odour Blast comes in an Airopack bottle which is the eco friendly alternative to aerosol. Expect a 360 degree dispensing action, 98% product evacuation and nothing but your product and clean air. Whatever your sport, have the power of combact by your side.

### Core benefits

Deep cleaning properties	Disinfects, deodourises and provides a deep clean, leaving equipment odour free
Approved to <b>EN14476</b>	For enveloped viruses, including Coronavirus (e.g. 2019 n CoV / SARS CoV 2), Poxviridae, Herpesviridae, Filoviridae (e.g. Ebola, Marburg), Flavivirus, Hepatitis C Virus (HCV), Hepatitis Delta Virus (HDV), Influenza Virus, Paramyxoviridae, Rubella Virus, Measles Virus, Rabies Virus, HIV, Human T Cell Leukemia Virus (HTLV), Hepatitis B virus (HBV)
Approved to <b>EN1276</b>	For E. coli, Enterococcus hirae, Pseudomonas aeruginosa and Staphylococcus aureus
Approved to <b>EN13623</b>	Legionella pneumophila
Approved to <b>EN13697</b>	For E. coli, E. hirae, Ps. aeruginosa, S. aureus, Salmonella typhimurium, MRSA, Listeria monocytogenes, Campylobacter jejuni, Vancomycin Resistant Enterococci, Botrytis cinerea, Fusarium oxysporum
Approved to <b>EN1650</b>	For B cinerea
Reduces CO2e	By up to 85%

### How does it work?

The ingredients in Combact Odour Blast work in synergy to ensure the efficient kill of a wide range of microbial species.

The product has multiple modes of action:

- Damages outer membranes, causing leakage of cell contents
- Attacks other cell structures, proteins and DNA
- Prevents protein synthesis
- Arrests energy production by the cell

### DIRECTIONS FOR USE

Spray and clean organic debris from the surface, spray and leave to dry for 5 minutes.

### Environmental

- Local UK production and supply chain reduces CO2e impact from transport
- Technologies are renewable and sustainable, sourced from plant extracts, fermentation, microbes and manufacturing by products reducing CO2e and environmental toxicity
- We use Airopack technology which is a recyclable and air powered powered - no extra chemicals or gases
- Airopack has a 32% lower carbon footprint than traditional aerosol and 47% lower lifetime footprint than traditional aerosol
- ISO 14001:2015
- Readily biodegradable (99% over <28 days)
- 0% manufacturing waste
- Not tested on animals
- Excludes all 'watch list' raw materials
- Reduces CO2e by up to 85%

### Product specification

- Fresh fragrance
- Surfactant
- Naturally derived biocide
- Amine biocide

### Safety and storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS).

This data sheet is only for professional users/specialists. Store in original closed containers away from extremes of temperature.
